USA - STATI UNITI d'AMERICA						<i>ZANIN</i>		4	
YUG - ex YUGOSLAVIA						<i>MARKSTEINER</i>		3	

Born from the will of Dr. Cesare Ferroni to remember his daughter Anna, who died prematurely, the F.A Cup (Ferroni Anna) gave away a rich gold and silver trophy, carefully worked.

The Team Racing F2C competition immediately attracted enthusiasts from European countries.

The trophy was a challenge, the winner put it back up for grabs the following year, until the original Cup was finally awarded to the Austrian team Kropf-Nitsche, winners 3 consecutive times.

Generously Dr. Ferroni had a second trophy made -copy of the previous one- and thus the COPPA d'ORO F.A. it has continued to be up for grabs year after year.

The Lugo aeromodellers group, in agreement with Dr. Ferroni, in 1979 also added an F2A Speed race to the competition, thus giving life to the Trofeo F.A.

Since 1995, our international competition was part of the World Cup circuit, with the addition of an aerobatics competition, entitled Trofeo Cesare Ferroni, in memory of the friend doctor.

In 2013, celebrating the 50th edition of the COPPA d'ORO, was also added the LUGO Gold Cup F2D, the Control Line fourth category, Combat.

To allow competitors to score double World Cup points, with just one trip, since 2018 we have also been hosting the GBR F2 World Cup, with -also in this competition- all the 4 categories in race.

History and evolution of control line passed by Lugo, 60 years of COPPA d'ORO, from 1964 to today 2023, many Champions and more friends participated or are present today. Hello to everybody!
